

TECHNICAL DATA SHEET

TOPS PA-247

TOPS PA-247 is a pure-acrylic polymer, excellent cost-performance attributes for architectural coatings applications. It is a special type for improve color retention, pigment dispersion, gloss, scrub resistance, good hiding power and very good to protect dirt pick up.

1. APPLICATION

TOPS PA-247 is perfectly suitable for high quality interior, exterior paint and clear coatings applications.

2. GENERAL PROPERTIES

Solid Content (%)	:	49 to 51 %
Viscosity at 30°C	:	200 to 1,000 cps.
pH Value	:	8.0 to 9.0
MFFT	:	+39 ° C
Specific gravity	:	1.080
Mechanical Stability	:	good
Appearance	:	milky, white emulsion.

3. PACKING

200 KG/STEEL DRUM

1,000 kg/IBC
