

# TECHNICAL DATA SHEET

## TOPS WR-D92

### Textile Nano Coating Silane-Fluorocarbon Solution

Protect your Fabrics and Make Them Water and Stain Proof

Protection for the home textile and fabric surfaces. With the same hydrophobic and Easy Clean effect from Homeshine, Hometex protects your textiles from daily risks of stain and water damage. Ideal for use on seat upholstery, carpets, curtains, rugs, etc.

- When a guest spills wine, no panic.
- When your little one spills food, no panic.
- When your family has a movie night in the living room, no worries about the ice cream sundaes everyone decides to eat while sitting on the sofa.
- Stains come right off.
- Your textile's prints and dyes are protected from fading, whether from the sun or from cleaning.

TOPS WR-D92 removes the worry and keeps your upholstery's new-look. Protects automotive fabrics from stain and creates a nano sized coating that repels water. TOPS WR-D92 does not change the color and texture of fabric.

<b>Application surface type</b>	<b>Home fabric upholstery</b>
Durability	Up to 6 months
Temperature durability	110°C
Chemical resistance	11>pH>1
Consumption	80-100 ml/m <sup>2</sup>
Coating thickness	~75-100 nm
Water repellency	yes
Oil repellency	yes
Breathability	yes
Shelf life	2 years
Keeping conditions	-3°C to +30°C
Curing period	24 h

### How to apply

- Surface should be free of any dust, wax, dirt, oil, water or etc.
- Application area should be ventilated well.
- Surface should be sprayed around 80-100 times for one square meter.
- Curing time is 24 h.
